Quality Requirements
Q4R - Foreign Object Debris/Damage Prevention

==========

* Revised **Added

Notice: A hard copy of this document may not be the document currently in effect. The current version is always the version on the Lockheed Martin network.

* A. Seller shall develop and maintain a Foreign Object Debris/Damage ("FOD") Prevention program including the processes and controls at manufacturing areas to prevent introduction of foreign objects into any item delivered under this purchase order ("PO").

* B. Seller shall employ appropriate housekeeping practices to assure timely removal of residue/debris generated, if any, during manufacturing operations and/or normal daily tasks. Seller shall determine if sensitive areas that may have a high probability for introduction of foreign objects shall have special foreign object (FO) emphasis controls, such as foreign object barriers and/or protective covers, in place appropriate for the prevention of FO intrusion.

* Seller shall determine the need for, and implement, FOD Prevention Awareness and/or Control training programs.
