

JASSM[®]

THE BEST VALUE OF ANY AIR-TO-SURFACE MISSILE IN ITS CLASS

LOCKHEED MARTIN
We never forget who we're working for[®]

JASSM®

JASSM is a long-range, conventional, air-to-ground, precision standoff missile for the U.S. and allied forces. Designed to destroy high-value, well-defended, fixed and relocatable targets, JASSM's significant standoff range keeps aircrews well out of danger from hostile air defense systems. Proven reliable, JASSM employs an enhanced digital anti-jam GPS receiver and infrared seeker to dial into specific points on targets. With its superior performance and affordable price, JASSM offers the best value of any weapon in its class.

FEATURES

- Simple mission planning
- Adverse weather operable
- Global Positioning System (GPS)/Inertial Measurement Unit guidance
- GPS jam resistant
- Pinpoint accuracy
- High lethality
- Highly survivable
- Supportable
- Full loadout on F-16C/D, F/A-18C/D, F-15E, B-1, B-2 and B-52 aircraft
- Full aircraft carrier compatibility

SPECIFICATIONS

JASSM's design incorporates proven technologies and subsystems into a stealthy air vehicle to meet today's and tomorrow's threats.

Weight	2,250 lb / 1,020.58 kg
Length	168 in / 4.267m
Warhead	1,000 lb Blast Fragmentation
Range	>200 nmi / >370.4 km
Storage	15 years
