REV	DATE	CHANGES
11	3-10-2021	Administrative change to correct incorrect header and label formatting on this release
	2-10-2021	<p>Realized after previous revision that scope of applicability was too wide and needed more restrictive language.</p> <p>MODIFIED:</p> <p>2.1: Item made singular for consistency, Seller changed to Supplier and capitalization removed.</p> <p>2.2: Changed LM-friendly language to more universally understood language.</p> <p>3.1: Major change to the applicability / scope of fit check items. Makes the criteria for fit check clearer and more pertinent to LM needs. Also added a reference to Appendix A under main header. Parenthetical reference to FCI removed because it is already defined earlier in the document.</p> <p>3.2 & 3.3: Language clarification.</p> <p>4.1: Minor update - updated Appendix letter and made FCI singular. Changed language to flow better..</p> <p>4.3: Minor update - updated Appendix letter</p> <p>4.5: Made singular. NOTE: 4.5 was <u>MOVED</u> to 5.1.1.</p> <p>5.2, 5.3 & 5.4: Minor updates for language clarifications.</p> <p>ADDED:</p> <p>2.3: Description/definition of Critical Load which is now a criteria for fit check.</p> <p>4.4.1: Added statement regarding Supplier not being penalized for shipping FCI in early.</p> <p>4.4.2: Added statement indicating Supplier cannot continue to ship product without feedback from the LM team of an acceptable fit check.</p> <p>5.2.1: Added statement regarding Supplier not being penalized for FCI non-conformances.</p> <p>5.2.2: Added statement indicating that a Buyer will return a failed fit check to the supplier for repair / rework.</p> <p>Appendix A: Added as an aid to determine whether a fit check is applicable or not.</p> <p>Appendix B: Note added regarding Spares / Sustainment POs not requiring fit check. Reason for fit check updated to align with the update.</p>
