H-002 - RELEASE OF INFORMATION

1. The Seller shall obtain approval from the Buyer 30 days prior to release of any information relating to this contract that has not been previously cleared or released by the U.S. Air Force or the Department of Defense. The Seller shall include this clause in any subcontract awarded as a result of this contract. "Information" includes, but is not limited to, news releases, articles,

manuscripts, brochures, advertisements, still and motion pictures, speeches, trade association meetings, symposia, published professional papers, briefings, etc. Briefings submitted using Microsoft Power Point shall be submitted in Note Page format.

2. All Seller requests must include a statement that full internal technical and security reviews have been accomplished and that the information being submitted for clearance is "unclassified, technically accurate, nonproprietary, and considered suitable for public release." A sample seller request letter with the required certification statements and other information may be obtained from the Security and Policy Review public web site at <http://ascpa.public.wpafb.af.mil>. Sellers must provide three (3) copies of each document or magnetic media (video, CD, floppy disk, etc.) and request letter by postal mail or package service. For security and administrative reasons, documents may not be submitted by electronic mail.

H-006 - AUTHORIZATION TO USE OTHER THAN NEW MATERIAL

(a) Support as a capability concept: A key aspect of the F/A-22 support program (Performance-based Agile Logistics Support (PALS)) is the concept of "Support as a Capability". This consists of "support services capability" and "support material capability." Support services capability is performance-based support of the flying hour program (e.g., field service representatives, heavy maintenance capability, support engineering, etc.). Support material capability provides spares as required to meet the flying hour program in a manner that is consistent with specific performance based results. In order to effectively implement this concept, the following authorization to use other than new material shall pertain to all F/A-22 contracts.

(b) Authorization to use other than new material: In order to implement the support material capability concept in a manner that ensures maximum flexibility and efficiency, it may become necessary to utilize "other than new" materials in the performance of one or more contracts in the F/A-22 program. "Other than new" material is defined on the Engineering and Manufacturing Development (EMD) contract (F33657-91-C-0006) under the clause at FAR 52.210-5, New Material (APR 1984) and FAR 52.210-7, Used or Reconditioned Material, Residual Inventory, and Former Government Surplus Property (APR 1984). On the PRTV/PRTV II contract (F33657-97-C-0030) it is defined under the clause at FAR 52.211-5, Material Requirements (OCT 1997), on the Lot 1, Lot 2 and Lot 3 contracts (F33657-99-C-0036, F33657-00-C-0020 and F33657-01-C-2095 respectively) it is defined under the clause at FAR 52.211-5, Material Requirements (AUG 2000), and on this contract it is defined under the clause at FAR 52.211-5, Material Requirements (AUG 2000). These clauses (and any substantially similar clauses in later contracts) require the use of new materials in the performance of the contract requirements, unless the use of "other than new" material is authorized in writing by Lockheed Martin. Subject to the conditions referenced in paragraph (c) below, Lockheed Martin hereby authorizes the use of "other than new" materials in the performance of this contract. To the extent

allowed by paragraph (c) below, this authorization includes the use of material previously available to or accepted by the Government and/or Lockheed Martin and returned to the Seller as Government Furnished Property (GFP) or Contractor Furnished Equipment (CFE).

(c) Conditions on the authorization to use other than new material: The above authorization to use "other than new" material in the performance of this contract is subject to the conditions listed below. Any potential use of "other than new" material that does not meet all the conditions listed below shall be evaluated on a case by case basis by Lockheed Martin in accordance with the applicable clause(s) referred to in paragraph (b) above.

(1) Suitability for the intended use: The "other than new" material to be used in the performance of this contract must be suitable with respect to form, fit, function, and interface, and may not create limitations to the weapon system performance, supportability, or effectiveness in performance of the assigned mission.

(2) Condition: The "other than new" material to be used in the performance of this contract must be in a serviceable condition without creating additional operational limitations. All Time Change without creating additional operational limitations. All Time Change Items (TCIs) to be used as "other than new material" shall have at least 40% or not less than 400 flight hours of useful life remaining whichever is higher. Parts or components identified as "bad actors" (as defined by Chapter 8, T.O. 00-35D-54) shall not be used.

(3) Safety of flight: The "other than new" material to be used in the performance of this contract must not create a safety of flight risk.

(4) Proper configuration: The "other than new" material to be used in the performance of this contract must conform to the authorized configuration of the end item for which such material is to be used. If a preferred sparing activity applies, the "other than new" material must conform to the preferred configuration.

(d) Asset Management Prioritization: The Seller shall make the day to day decisions and authorize the movement of assets in accordance with the Uniform Material Movement and Issue Priority System (UMMIPS) defined by Air Force Manual (AFMAN) 23-110. When the minimum requirements of the production program conflict with those of the field support or test programs (or vice versa), the Seller shall notify Lockheed Martin prior to utilizing an asset otherwise needed to fulfill the minimum requirements of the affected program. Deviation from or exceptions to the above priority requirements shall require written direction from Lockheed Martin. Any equitable adjustments to the contract(s) price and/or schedule (if appropriate) shall be executed in accordance with the "Changes" clause of this contract. This clause in no way relieves the Seller of any responsibilities or obligations under this or any other contract in the F/A-22 program.

H-012 - EXCLUSION OF COBB COUNTY AND GEORGIA STATE TAXES

For the purpose of SECTION I contract clause FAR 52.229-4 Federal, State, and Local Taxes (Noncompetitive Contract) (Jan 1991), the contract price excludes any taxes assessed, for any period after the date of this contract, by Cobb County, Georgia and the state of Georgia on the Seller's interest in or use of Government property, including special tooling to which title or the right thereto is vested in the Government, and any sales or use tax assessed (1) by reason of the sale of supplies hereunder directly to the Government, or (2) by reason of purchase or use of property incorporated into supplies sold to, owned by or manufactured for the Government.

H-014 - NON-INTERFERENCE USE OF SPECIAL TEST EQUIPMENT, SPECIAL TOOLING AND GOVERNMENT FURNISHED PROPERTY

On a non-interference basis, the Seller may use Special Tooling, Special Test Equipment and/or Government Furnished Property (GFP) accountable or approved for use under the F/A-22 EMD and Production programs in the performance of this contract

H-022 - SUBCONTRACTOR WARRANTIES

In addition to any other remedies provided in this contract, the Seller agrees that if any written subcontractor warranties available to the Air Force or Lockheed Martin for accessories, equipment and/or parts installed in an end item or provided as part of this contract, the Seller shall promptly notify Lockheed Martin in writing upon the acquisition of such warranties providing warranty coverage for the Air Force or Lockheed Martin specifying the details thereof. The Seller shall price its warranty administration costs associated with such subcontractor warranties as part of its proposal preceding an affected delivery order. The Seller will, upon receiving a written request from Lockheed Martin, exercise warranty administration efforts to enforce these warranties on behalf of the Government or Lockheed Martin consistent with Lockheed Martin's direction and the terms of the applicable warranty so long as such warranties remain in effect. The Seller shall not be required to incur warranty litigation or alternative dispute resolution costs relative to a subcontractor warranty on behalf of the Air Force or Lockheed Martin unless such efforts are funded by Lockheed Martin.
