2. General

Seller is an independent contractor in all its operations and activities hereunder, and the employees furnished by the Seller to perform work pursuant to this Purchase Order are Seller's employees exclusively without any relation whatsoever to Buyer. Said employees shall be paid by the Seller for all services performed under this Purchase Order and the Seller shall be responsible for all obligations and reports covering Social Security, Unemployment Insurance, Workers' Compensation, Income Tax, and any other reports and deductions required by local, state and/or federal law or regulation. Seller is not granted, expressly or impliedly, any right or authority to create any obligation or liability on behalf of or in the name of Buyer, or to bind Buyer in any manner whatsoever.

Unless otherwise indicated, the work is to be furnished or performed at facilities owned by the United States Government, designated as Air Force Plant No. 4, which is property under Federal jurisdiction.

3. Acceptance

Acceptance of this Purchase Order, either by acknowledgment or performance of services, constitutes acceptance of the conditions set forth below and on this Purchase Order. No change, modification, or revision to this contract shall be valid unless in writing and signed by the authorized Buyer Procurement Representative.

4. Performance

Performance must be in strict compliance with the schedule and other terms and conditions of this Purchase Order.

5. Compliance with Laws and Regulations

- (a) Seller shall comply with the applicable provisions of all Federal, state, and local laws and ordinances and all lawful orders, rules and regulations promulgated thereunder including without limitation the Occupational, Safety and Health Act (OSHA) and the Arms Export Control Act. Seller agrees to indemnify Buyer against any loss, cost, damage or liability by reason of Seller's violation of this clause.
- (b) In the event Seller anticipates contracting with foreign sources for work performed under this PO, the Seller shall: 1) notify the Buyers Construction Engineer; and 2) comply with the International Tariff in Arms Regulation (ITAR) 22 CFR Sections 121-128.
- (c) Seller shall comply with the Toxic Substances Control Act and any rules and regulations promulgated and published by the Administrator of the environmental Protection Administration pursuant to The Toxic Substances Control Act (15 U.S.C. Sec. 2601 *et. seq.*) as amended.
- (d) Seller shall provide to Buyer with each delivery any Material Safety Data Sheet applicable to the Items and containing such information as required by the Occupational Safety and Health Act of 1970 and regulations promulgated thereunder.

6. Suspension of Work

- (a) Buyer or Buyer's Representative (CE) may order Seller, in writing, to suspend, delay, or interrupt all or any part of the work of this Purchase Order for the period of time that Buyer determines appropriate for the convenience of Buyer.
- (b) If the performance of all or any part of the work is, suspended, delayed, or interrupted for an unreasonable period of time, (1) by an act of Buyer in the administration of this Purchase Order, or (2) by Buyer's failure to act within the time specified in this Purchase Order (or within a reasonable time if not specified), an adjustment shall be made for any increase in the cost of performance of this Purchase Order (excluding profit) necessarily caused by the unreasonable suspension, delay, or interruption, and the Purchase Order shall be modified in writing accordingly. However, no adjustment shall be made under this clause for any suspension, delay, or interruption to the extent that performance would have been so suspended, delayed, or interrupted by any other cause, including the fault or

negligence of Seller, or for which an equitable adjustment is provided for or excluded under any other term or condition of this Purchase Order.

- (c) A claim under this clause shall not be allowed (1) for any costs incurred more than 20 days before Seller shall have notified Buyer in writing of the act or failure to act involved (but this requirement shall not apply to a claim resulting from a suspension order), and (2) unless the claim, in an amount stated, is asserted in writing as soon as practicable after the termination of the suspension, delay, or interruption, but not later than the date of final payment under the Purchase Order.

7. Termination for Default

- (a) Buyer may, by written notice of default to Seller, terminate the whole or any part of this Purchase Order if Seller fails to: (i) perform this Purchase Order within the time specified herein or any extension thereof; or (ii) perform any other provision of this Purchase Order; or, (iii) make progress so as to endanger performance of this Purchase Order in accordance with its terms, and does not cure such failure within a period of ten (10) days (or longer period as Buyer may authorize in writing) after receipt of notice from Buyer specifying such failure.
- (b) In the event Buyer terminates this Purchase Order in whole or in part as provided in subparagraph (a) above, Buyer may procure, upon such terms and in such manner as Buyer may deem appropriate, services similar to those so terminated, and Seller shall be liable to Buyer for any excess costs. However, Seller shall continue the performance of this Purchase Order to the extent not terminated.
- (c) Seller shall not be liable for any excess costs if the failure to perform this Purchase Order arises out of unforeseeable causes beyond the control and without the fault or negligence of Seller. Such causes may include, but are not limited to, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantines restrictions, strikes, freight embargoes, and unusually severe weather; but in every case the failure to perform must be beyond the control and without the fault or negligence of Seller. If failure to perform is caused by the default of a subcontractor, and if such default arises out of unforeseeable causes beyond the control of both Seller and the subcontractor, and without the fault or negligence of either of them, Seller shall not be liable for any excess costs for failure to perform, unless the services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit Seller to meet the required delivery schedule. The term "subcontractor(s)" shall mean subcontractor(s) at any tier.
- (d) If this Purchase Order is terminated as provided in subparagraph (a) above, Buyer, in addition to any other rights provided in this Purchase Order, may require Seller to deliver to Buyer or the Government, in the manner and to the extent directed by Buyer, (i) any completed services, and (ii) such partially completed services and materials, plans, drawings, information and contract rights (hereinafter called "services and/or materials") as Seller has specifically produced or specifically acquired for the performance of such part of this Purchase Order as has been terminated; and Seller shall, upon direction of Buyer, protect and preserve property in the possession of Seller in which Buyer or the Government has an interest. Payment for completed services delivered to and accepted by Buyer shall be at the

Purchase Order price. Payment for services and/or materials delivered to and accepted by Buyer and for the protection and preservation of property shall be in an amount agreed upon by Buyer and Seller. Failure to agree to such amount shall be a dispute concerning a question of fact within the meaning of the paragraph of this Purchase Order entitled "Disputes." Buyer may withhold from amounts otherwise due Seller for such completed services and/or materials such sum as Buyer determines to be necessary to protect Buyer or the Government against loss because of outstanding liens or claims of former lien holders.

- (e) If, after notice of termination of this Purchase Order under the provisions of this paragraph, it is determined for any reason that Seller was not in default under the provisions above, or that the default was excusable under the provisions of this paragraph, the rights and obligations of the parties shall be the same as if the notice of termination had been issued pursuant to a termination for convenience of Buyer.
- (f) The rights and remedies of Buyer provided in this paragraph shall not be exclusive and are in addition to any other rights and remedies provided by law or under this Purchase Order.

8. Termination for Convenience

- (a) Buyer, in accordance with this clause, may terminate performance of work under this Purchase Order in whole or in part if the Buyer determines that a termination is in Buyer's interest. The Buyer shall terminate by delivering to the Seller a Notice of Termination specifying the extent of termination and the effective date.
- (b) After receipt of a Notice of Termination, and except as directed by the Buyer, the Seller shall immediately proceed with the following obligations, regardless of any delay in determining or adjusting any amounts due under this Clause:
 - (1) Stop work as specified in the notice.
 - (2) Place no further subcontracts or orders (referred to as subcontracts in this clause) for materials, services, or facilities, except as necessary to complete the continued portion of the contract.
 - (3) Terminate all subcontracts to the extent they relate to the work terminated.
 - (4) Assign to Buyer, as directed by Buyer, all right, title, and interest of the Seller under the subcontracts terminated, in which case Buyer shall have the right to settle or to pay any termination settlement proposal arising out of those terminations.
 - (5) With approval or ratification to the extent required by Buyer, settle all outstanding liabilities and termination settlement proposals arising from the termination of subcontracts, the approval or ratification being final for purposes of this CLAUSE.
 - (6) As directed by the Buyer, transfer title and deliver to Buyer (i) the fabricated or unfabricated parts, work in process, completed work, supplies, and other material produced or acquired for the work terminated, and (ii) the completed or

partially completed plans, drawings, information, and other property that, if the contract had been completed, would be required to be furnished to Buyer.

- (7) Complete performance of the work not terminated.
 - (8) Take any action that may be necessary, or that the Buyer may direct, for the protection and preservation of the property related to this contract that is in the possession of the Seller and in which Buyer has or may acquire an interest.
 - (9) Use its best efforts to sell, as directed or authorized by the Buyer, any property of the types referred to in subparagraph (6) above; provided, however, that the Seller (i) is not required to extend credit to any purchaser and (ii) may acquire the property under the conditions prescribed by, and at prices approved by the Buyer. The proceeds of any transfer or disposition will be applied to reduce any payments to be made by Buyer under this Purchase Order, credited to the price or cost of the work, or paid in any other manner directed by the Buyer.
- (c) After termination, the Seller shall submit a final termination settlement proposal to Buyer in the form and with the certification prescribed by Buyer. The Seller shall submit the proposal promptly, but no later than 60 days from the effective date of termination, unless extended in writing by the Buyer upon written request of the Seller within this 60 day period. However, if the Buyer determines that the facts justify it, a termination settlement proposal may be received and acted on after 60 days or any extension. If the Seller fails to submit the proposal within the time allowed, the Buyer may determine, on the basis of information available, the amount, if any, due the Seller because of the termination and shall pay the amount determined.
- (d) Subject to paragraph (c) above, the Seller and the Buyer may agree upon the whole or any part of the amount to be paid because of the termination. The amount may include a reasonable allowance for profit on work done. However, the agreed amount, whether under this paragraph (d) or paragraph (e) below, exclusive of costs shown in subparagraph (e)(2) below, may not exceed the total Purchase Order price as reduced by (1) the amount of payments previously made and (2) the Purchase Order price of work not terminated. The Purchase Order shall be amended, and the Seller paid the agreed amount. Paragraph (e) below shall not limit, restrict, or affect the amount that may be agreed upon to be paid under this paragraph.
- (e) If the Seller and Buyer fail to agree on the whole amount to be paid the Seller because of the termination of work, the Buyer shall pay the Seller the amounts determined as follows, but without duplication of any amounts agreed upon under paragraph (d) above:
- (1) For Purchase Order work completed before the effective date of termination and acceptable to Buyer, the total (without duplication of any items) of:
 - (a) The cost of this work;
 - (b) The cost of settling and paying termination settlement proposals under terminated subcontracts that are properly chargeable to the terminated portion of the contract if not included in subdivision (a) above; and

- (c) A sum, as profit on (a) above, determined by Buyer under Section 49.202 of the Federal Acquisition Regulation, in effect on the date of this Purchase Order, to be fair and reasonable; however, if it appears that the Seller would have sustained a loss on the entire Purchase Order had it been completed, the Buyer shall allow no profit under this subdivision (c) and shall reduce the settlement to reflect the indicated rate of loss.
- (2) The reasonable cost of settlement of the work terminated, including:
 - (a) Accounting, legal, clerical, and other expenses reasonably necessary for the preparation of termination settlement proposals and supporting data;
 - (b) The termination and settlement of subcontracts (excluding the amounts of such settlements); and
 - (c) Storage, transportation, and other costs incurred, reasonably necessary for the preservation, protection, or disposition of the termination inventory.
- (f) Except for normal spoilage, and except to the extent that Buyer expressly assumed the risk of loss, the Buyer shall exclude from the amounts payable to the Seller under paragraph (e) above, the fair value, as determined by the Buyer, of property that is destroyed, lost, stolen, or damaged so as to become undeliverable to Buyer or to a buyer of said property.
- (g) The cost principles and procedures of Part 31 of the Federal Acquisition Regulation, in effect on the date of this contract, shall govern all costs claimed, agreed to, or determined under this CLAUSE.
- (h) In arriving at the amount due the Seller under this CLAUSE, there shall be deducted:
 - (1) Any payments to the Seller under the terminated portion of this contract;
 - (2) Any claim which Buyer has against the Seller under this Purchase Order; and
 - (3) The agreed price for, or the proceeds of sale of, materials, supplies, or other things acquired by the Seller or sold under the provisions of this CLAUSE and not recovered by or credited to Buyer.
- (i) If the termination is partial, the Seller may file a proposal with the Buyer for an equitable adjustment of the price(s) of the continued portion of the Purchase Order. The Buyer shall make any equitable adjustment agreed upon. Any proposal by the Seller for an equitable adjustment under this clause shall be requested within 60 days from the effective date of termination unless extended in writing by the Buyer.
 - (1) Buyer may, under the terms and conditions it prescribes, make partial payments and payments against costs incurred by the Seller for the terminated portion of the Purchase Order, if the Buyer believes the total of these payments will not exceed the amount to which the Seller will be entitled.

- (2) If the total payments exceed the amount finally determined to be due, the Seller shall repay the excess to Buyer upon demand, together with interest thereon computed at the annual rate established under Section 6621 of the Internal Revenue Code of 1986 (26 U.S.C. 6621). Interest shall be computed for the period from the date the excess payment was received by the Seller to the date the excess is repaid. Interest shall not be charged on any excess payment due to a reduction in the Seller's termination settlement because of retention or other disposition of termination inventory until ten (10) days after the date of the retention or disposition, or a later date determined by the Buyer because of the circumstances.
- (j) As a condition precedent to any payments under this CLAUSE, Buyer may require Seller to furnish affidavits and releases, in accordance with the requirements of CLAUSE 14 "PAYMENTS" of this Purchase Order, that no liens or rights in rem of any kind lie upon or have attached against the work, materials, articles, or equipment.
 - (1) Unless otherwise provided for in this Purchase Order or by statute, the Seller shall maintain all records and documents relating to the terminated portion of this Purchase Order for three (3) years after final settlement. This includes all books and other evidence bearing on the Seller's costs and expenses under this Purchase Order. The Seller shall make these records and documents available to Buyer at the Seller's office, at all reasonable times, without charge. If approved by the Buyer, photographs, microphotographs, or other authentic reproductions may be maintained instead of original records and documents.

9. Rights and Reservations

All reports, documents, records, data and software, including without limitation, drawings, specifications and documentation, and all material, including without limitation, tools, dies, patterns, samples, devices and improvements, and all other information prepared, created or developed in connection with this Purchase Order or furnished to Seller by Buyer, or paid for in whole or in part by Buyer (hereinafter referred to as "Property"), are and shall be owned solely by Buyer or the Government. Seller shall not use or disclose to others all or any part of such Property without specific prior written permission of Buyer. Seller shall disclose to Buyer and hereby transfers, assigns and sets over to Buyer the entirety of any and all patents, copyrights, mask works and/or trade secrets in such Property, which may be possessed or become possessed by Seller as author and/or otherwise. Prior to any printing required under the terms of this Purchase Order, Seller shall request in writing from Buyer the legends and notices, if any, to be affixed on such Property at the time of printing.

Any data, software, material and/or information developed by Seller solely at its expense, and/or solely at the expense of any of its subcontractors other than Buyer, and delivered and/or required to be delivered hereunder (hereinafter referred to as "Other Data"), shall be furnished without restriction as to Buyer's right to use and/or disclose such Other Data, and free of all legends and notices unless such Other Data is specifically identified in a Proprietary Data Agreement incorporated into this Purchase Order.

10. Patents, Copyrights, Mask Works, and Trade Secrets

- (a) Patents, Copyrights, Mask Works, and Trade Secrets: Seller agrees to defend, indemnify and hold harmless Buyer, its customers and agents, against any liability, including without limitation, costs, expenses and attorney's fees, for or by reason of any actual or alleged infringement of any patent, copyright, mask work or trade secret arising out of the manufacture, use, sale, delivery or disposal of goods or services furnished under this PO.

Buyer shall notify Seller as soon as practicable of any claim of infringement resulting therefrom received by Buyer. In the event of any such claim against Buyer, Seller shall furnish to Buyer, when so notified by Buyer, all evidence and information in the possession of Seller pertaining to such claim. Seller shall report to Buyer promptly and in reasonable written detail each notice or claim of patent, copyright, mask work or trade secret infringement relating to the performance of this PO of which Seller has knowledge.

The indemnity and hold harmless provisions of this clause shall not be applicable to actual or alleged patent infringements if this PO is issued under a Government prime contract which contains FAR Clause 52.227-1, "Authorization and Consent," with its Alternate 1. Where payment is made for or results in experimental, developmental, or research work performed under this PO, then unless this PO is issued under a Government prime contract, Seller shall disclose and does hereby assign to Buyer all inventions resulting therefrom and shall assist Buyer, to the extent reasonably requested, in securing and defending patent protection thereon, and does grant Buyer the right to use for any purpose all data specified to be delivered hereunder.

- (b) Patents and Data: The clauses related to Patents and Data in the FAR and DFARS which are incorporated in the prime contract(s) under which this PO is issued, are hereby incorporated herein by reference. Seller is cognizant of such provisions and agrees to comply with such provisions as "Contractor." Notwithstanding the foregoing, if this PO is not for experimental, developmental, or research work, the "Patent Rights-Retention By Contractor" clauses do not apply to Seller. Unless otherwise specified in this PO, all technical data and/or computer software and computer software documentation which are required to be furnished by Seller under this PO shall be furnished with "Unlimited Rights."

11. Work on Buyer's Premises

When Seller, Seller's employees, agents, representatives or subcontractors enter onto Buyer's premises for any reason in connection with this Purchase Order, Seller and such other parties shall abide by all rules and regulations at the work site including but not limited to those with respect to safety, security, fire prevention, traffic, and waste management, and abide by all military security regulations including the Buyer's "**Contractor Environment, Safety & Health Handbook**" (PM-8013), the current version of which is incorporated herein and made a part hereof by this reference.

Prior to commencement of any work, Seller shall review with their employees, and subcontractors all applicable safety rules and regulations, including the Contractor Environment, Safety & Health Handbook. Seller shall be required to certify in writing that

these safety rules and regulations have been reviewed with all of its employees and subcontractors.

Buyer will notify Seller or Seller's representative at the work site of any noncompliance with the foregoing rules and regulations and the corrective action to be taken. After receipt of such notice, Seller shall immediately take correction action. If Seller fails or refuses to comply promptly, Buyer may issue an order stopping all or part of the work until satisfactory corrective action has been taken. No part of the time lost due to any such stop work order shall be made the subject of a claim for an extension of time or for excess costs or damages by Seller.

Seller shall maintain an accurate record of, and shall report to Buyer in the manner and on the forms prescribed by Buyer, exposure data and all accidents resulting in death, traumatic injury, occupational disease, and damage to property, material, supplies and equipment incident to work performed under this Purchase Order. Seller shall defend, indemnify and hold Buyer harmless from all claims, actions, demands, losses and causes of action arising from injury, including death, to any person, or damage to any property, when such injury or damage results in whole or in part from acts or omissions of Seller, Seller's employees or agents, save and except damage caused by the sole negligence of Buyer.

12. Bonds

Seller shall furnish performance and payment bonds in a form acceptable to Buyer and with a surety satisfactory to Buyer.

- (a) A payment bond, for the protection of persons furnishing material or labor in connection with the performance of the work under this Purchase Order, shall have a penal sum as follows:
 - (1) 50 percent of the PO price if the PO is not more than \$1 million,
 - (2) 40 percent of the PO price if the PO is more than \$1 million but not more than \$5 million; or
 - (3) \$2.5 million if the PO price is more than \$5 million.
- (b) Seller shall furnish a performance bond equal to 100% of the Purchase Order price. The performance bond amount shall include taxes imposed by the United States which are collected, deducted, or withheld from wages paid by Seller in carrying out the Purchase Order.
- (c) All bonds required hereunder shall become binding upon the award of the Purchase Order.
- (d) Irrespective of whether the foregoing requirements are met, if any surety for any bond furnished is or becomes unacceptable to Buyer, or if any such surety fails to furnish reports as to its financial condition when requested by Buyer, Seller shall promptly furnish such additional security as may be required to protect the interests of Buyer or the United States and the person or business entity(s) supplying labor or materials in prosecution of the work contemplated by this Purchase Order.

13. Insurance

- (a) Seller, and any subcontractors used by Seller in connection with this PO, shall carry Worker's Compensation and Employee's Liability Insurance to cover Seller's and such subcontractors' legal liability for accidents to their respective employees. Seller and its subcontractors shall carry adequate Comprehensive General Liability and Comprehensive Automobile Liability Insurance covering the legal liability of Seller and such subcontractors for accidents arising out of the operations of Seller or such subcontractors which result in bodily injury, including death, to any person or persons, or any damage to property. At Buyer's request, Seller shall furnish to Buyer certificates from Seller and/or its subcontractors' insurers showing such coverage in effect (in the amounts listed below) and agreeing to give Buyer ten (10) days prior written notice of cancellation of such coverage.

| Type of Insurance | Limits of Minimum Liability |
|--|---|
| A. General Liability (to include premises and operations, elevators, Independent Contractors, and completed operations and products) | Single Limits for Bodily Injury and Property Damage: \$1,000,000 (Each Occurrence) |
| B. Automobile Public Liability (to include Employer's non-ownership liability and hired autos) | Combined Single Limit: \$1,000,000 (Each Accident) |
| C. Workers Compensation and Employers' Liability | Each Accident: \$500,000 Disease – Each Employee: \$500,000 Disease – Policy Limit: \$500,000 |

14. Payment

- (a) The bid amount (fixed price purchase orders) shall be submitted in whole dollar increments only. All invoices submitted monthly in whole dollar increments for payment shall reference Buyer's purchase order number and line item number.
- (b) If the construction schedule is 30 days or less, payment for the work will be made in two payments only and no progress payments will be made.
- (c) Except as provided in paragraph (d) below and as otherwise provided in this Purchase Order, Seller, upon completion of all work called for by the Purchase Order and upon submission of all documentation, including a properly certified invoice in duplicate, shall be paid the Purchase Order price following final acceptance by Buyer.
- (d) Notwithstanding any other provisions of this Purchase Order, Buyer shall retain during the progress of the work under this Purchase Order and for thirty (30) days after the completion and final acceptance thereof, ten percent (10%) of the total price as set forth in the Purchase Order.

- (e) Seller will be entitled to progress payments in accordance with the provisions of this paragraph (e) if progress payments are specifically authorized. If so authorized, from time to time as construction progresses but at intervals of not less than thirty (30) days, Seller may submit invoices in duplicate certified by Seller's representative as to percentage of completion of performance of the entire Purchase Order. The amount of each invoice shall be that percentage of the total Purchase Order price equal to the percentage of completion of the Purchase Order, less any amounts previously billed by Seller. The net amount of each invoice so submitted and certified shall, upon approval of Buyer, be paid by Buyer to Seller, except that Buyer shall withhold a percentage not to exceed ten percent (10%) of each such invoice until expiration of thirty (30) days after completion and final acceptance by Buyer of the entire work called for by this Purchase Order, or until such earlier time as Buyer may approve it for payment.
- (f) The Government and Buyer, as their interests may be, shall retain title to all Government-furnished and Buyer-furnished property. Title to all facilities and components shall pass to and vest in the Government and Buyer, as their interests may be, upon delivery by Seller of such items which are required to be furnished or for which Seller may be entitled to payment for having furnished. Title to other property furnished or required to be furnished by Seller shall pass to and vest in the Government upon (i) issuance of the property for use in performing this Purchase Order, (ii) commencement of processing or use of the property in performing, this Purchase Order, or reimbursement of the cost of the property by Buyer, whichever occurs first. Title to any property shall not be affected by its incorporation into or attachment to any property not owned by the Government, nor shall any item of property become a fixture or lose its identity as personal property by being attached to real property. Notwithstanding that title to property is in the United States or Buyer through the operation of this Article, the handling and disposition of such property shall be determined by the applicable provisions of this Purchase Order.
- (g) Except to the extent that Buyer shall have otherwise expressly assumed risk of loss of property and without regard to title, in the event of the loss, theft, or destruction of or damage to property before Buyer's final acceptance of the work hereunder, Seller shall bear the risk of loss.
- (h) Seller recognizes that all work is to be performed at Air Force Plant No. 4, a Federal enclave, and that no claims by Seller or any subcontractor in connection with the work shall be the basis for enforcement of mechanics' or materialman's' liens or any similar rights or claims under Chapter 53 of the Texas Property Code or otherwise. Seller shall indemnify and hold Buyer harmless from and against any claims, demands, liability, cost or expense, including without limitation attorneys' fees, arising in connection with the nonpayment or alleged nonpayment for work performed by a subcontract at any tier. As a condition precedent to any payments under this Purchase Order, Buyer may require Seller to furnish affidavits that no liens or rights in rem of any kind lie upon or have attached against the work, materials, articles, or equipment, either for or on account of any work done or any materials, articles, or equipment or other item furnished or used in connection therewith, or any claims or demands of any kind. Seller promises to keep said property free and clear of all such liens and rights in rem. Buyer's payment is subject to the express condition that no liens or rights in rem shall so lie or attach. In the event any liens or rights in rem attach to, or are claimed by any person or entity in any property in

connection with this Purchase Order, Seller shall indemnify and hold Buyer harmless against all costs and expenses, including without limitation attorneys' fees, incurred by Buyer in discharging such liens or rights in rem or defending against such claims.

- (i) As conditions precedent to final payment Seller shall:
 - (1) execute and furnish to Buyer a release, in terms acceptable to the Buyer, of all claims and liens against Buyer arising under or by virtue of this Purchase Order, including, in the event of any termination, claims or liens arising under or by virtue of such termination;
 - (2) execute and furnish Buyer an affidavit executed in duplicate by a duly authorized officer of Seller that all charges for labor and materials used in the work have been paid, and an indemnification to Buyer against claims by others that such charges have not been paid;
 - (3) return all badges for plant admission and all car passes to Buyer's representative (Construction Engineer). Badges and passes may be returned by mail or in person. In the event that all badges and passes have not been returned, Seller's request for payment will be held without action.

- (j) The obligation of Buyer to make any of the payments required under this Purchase Order shall be subject to:
 - (1) any unsettled claims against Seller for labor and/or materials,
 - (2) reasonable deductions on account of defects in material and/or workmanship,
 - (3) any other claims which Buyer may have against Seller, including without limitation any withholding of, or reduction in, the payments or price payable to Buyer pursuant to any Government prime contract under which this Purchase Order may be issued arising out of any action, or failure or deficiency in performance, by Seller. Buyer may withhold from or setoff against the Purchase Order price under this Purchase Order or any other Purchase Order between Buyer and Seller any claims or amounts due to Buyer from Seller under this or any other Purchase Order and Buyer shall be entitled to payment from Seller of any claims or amounts due not so setoff.

- (k) Seller shall pay all Social Security Taxes, Unemployment Compensation Taxes, and all other obligations lawfully imposed on any employer of labor, at its own expense, and shall indemnify Buyer against any liability therefor. Unless otherwise provided, Seller agrees that any compensation paid by Buyer for Seller's performance of work under this Purchase Order includes all taxes levied by the Federal Government and by any state or political subdivision thereof, other than sales tax where Buyer's Direct Payment Exemption Certificate is issued, and the cost of all bonds required to be furnished hereunder.

- (l) Texas Direct Payment Exemption Certificate: The Buyer will furnish the Seller with a Texas Direct Payment Exemption Certificate to be used on this contract for the procurement of materials (excluding rental equipment), where applicable. The Seller shall furnish its subcontractors, suppliers and/or vendors with a Texas Resale Certificate, where applicable.

15. Assignment and Subcontracting

Seller shall not assign this Purchase Order or any portion thereof, nor shall Seller allow its subcontractors at any tier to place any subcontract hereunder that is not in accordance with the subcontract plan in the bid documents, without prior written consent of Buyer. All subcontracts shall contain the provisions required by this Purchase Order and shall permit assignment of those subcontracts to Buyer upon any termination of this Purchase Order. Any prohibited assignment of this Purchase Order by Seller shall be null and void and shall be deemed a material breach of this Purchase Order, and Seller shall remain liable to Buyer for performance of its covenants, duties, liabilities and obligations hereunder.

16. Changes

(a) Buyer may at any time, within the general scope of this Purchase Order, make changes in drawings and specifications, issue additional instructions, require additional work, or vary the period of performance of work and Seller shall immediately comply therewith. All changes shall be issued by Buyer in writing. No change shall release or exonerate any sureties upon any bond required or given, regardless of whether or not such sureties receive notice of such changes. Seller shall not undertake any change to this Purchase Order, nor shall Buyer be liable for increased costs resulting therefrom, unless requested by Buyer in writing.

(b) If any such change causes a material increase or decrease in the cost of, or the time required for, performance of any part of the work under this Purchase Order, Buyer shall make an equitable adjustment to the time of performance and the consideration to be paid to Seller, and the Purchase Order shall be modified in writing accordingly. Any claim by Seller for adjustment under this Article must be asserted in writing within twenty (20) days from the date of receipt by Seller of the notification of change. Any claim not so made by Seller shall be deemed to have been waived, provided, however, that if Buyer, in its sole discretion, decides that the facts justify it, Buyer may receive and act upon a proposal submitted before final payment of the Purchase Order. Any failure to agree upon an adjustment shall be resolved under the Article of this Purchase Order entitled "Disputes," but nothing provided in this Article shall excuse Seller from proceeding with the prosecution of the work as changed. Except as otherwise provided in this Purchase Order, no charge for extra work or material shall be allowed.

17. Waiver

The failure of Buyer in one or more instances to insist on performance of any portion or all of this Purchase Order shall not be construed to be a waiver in the future of Seller's performance in compliance with this Purchase Order.

18. Disputes
