### INSPECTION, ACCEPTANCE AND TEST

- A. Seller shall provide and maintain a Quality Assurance System in compliance with this article, with Buyer Basic and Additional Quality Assurance Requirements Appendices and Clauses listed in this Purchase Order, and with all other related appendices, clauses, and documents contained in this Purchase Order.
- B. All supplies shall be subject to inspection and test by Buyer and the Government at all times and places including the period of manufacture and, in any event, prior to final acceptance. Notwithstanding any prior inspection and acceptance all supplies are subject to final inspection and acceptance at destination.
- C. If any supplies or lots of supplies are defective in material or workmanship or are otherwise not in conformity, Buyer or the Government shall have the right either to reject such supplies (with or without instructions as to their disposition) or to require their correction. Supplies or lots of supplies which have been rejected, or required to be corrected, shall be removed or corrected in place, as required by the Buyer or the Government, by and at the expense of Seller promptly after notice, and shall not again be tendered for acceptance unless the former tender and either the rejection or requirement of correction is disclosed. All inspections and tests by the Buyer or the Government shall be performed in such manner as not to unduly delay the work. The Buyer reserves the right to charge to Seller any additional cost to the Buyer or the Government for such inspection and test when supplies are not ready at the time such inspection and test is requested by Seller. Failure to inspect or reject supplies shall neither relieve Seller from responsibility for such supplies as are not in accordance with the Purchase Order requirements nor impose liability on the Buyer or the Government therefor.
- E. Inspection, test or acceptance by the Buyer or the Government of any supplies or lots of supplies does not relieve Seller from any responsibility regarding defects or other failures to meet the requirements of this Purchase Order. In addition, no review and/or approval by the Buyer of any work hereunder or of any designs, drawings, specifications or other documents prepared by Seller shall be construed to relieve Seller, in any way, from design responsibility for the articles to be delivered hereunder or from responsibility to comply with the requirements of this Purchase Order.
- F. Acceptance shall not be conclusive as to latent defects, fraud, gross mistakes which amount to fraud, or as otherwise provided in this Purchase Order.

If Government inspection is required prior to shipment from Seller's plant, upon receipt of this order, promptly notify the Government representative who normally services your plant so that appropriate planning for Government inspection can be accomplished. Upon receipt of this order, promptly furnish a copy to the Government representative who normally services Seller's plant, or if none, to the nearest Army, Navy, Air Force, or Defense Supply Agency Inspection Office.
