More information

Thanks to the development of Aircraft Research & Test Center and S-70i™ BLACK HAWK production, PZL Mielec became the most technology advanced polish aviation company.

PZL Mielec is also:

- 82 years of aviation
- leader in Polish Defence Industry
- trusted supplier of Polish MOD
- trusted member of local society
- TOP employer of Eastern Poland

Core Products

S-70i BLACK HAWK

Proven, versatility helicopter designed to meet military standards, making the Black Hawk survivable in the most rigorous combat conditions. Black Hawk platform is used by US Army and 32 different countries all over the World. Different variants of Black Hawk have flown over 10 milions hours in the most austere of environments providing an operational readiness rate of over 85%.

M28

aircraft is a high-wing cantilever mono-plane featuring a non-pressurized cabin, twin vertical tails, a non-retract-able tricycle, fuselage-mounted landing gear with a steerable nose wheel. It is an unique design STOL commuter aircraft designed for easy reconfigura tion between different types of missions. The M28 can operate from any type of runway - unpaved, grass and gravel.

Powerful turbo-prop engines allow suc-cessful STOL operation with highest load vs. range capabilities from high elevation airstrips at very high ISA.

PZL MIELEC possess 80 year tradition in **aerostructure assembly** working together with global leaders in aerospace industry like; BOEING, SIKORSKY AIRCRAFT COMPANY, SPIRIT AEROSYSTEMS, BAE Systems, PRATT & WHITNEY, ILYUSHIN and others. We are committed to deliver world class products and ready to comply with customer high level requirements.
