

Subject: DoD: Defense Industrial Base COVID Tip Line

Dear friends and colleagues:

As the impact of COVID-19 unfolds domestically and in global supply chains, the Department of Defense would like to hear from you on potential disruptions or risk to your business.

To that end, the Office of the Deputy Assistant Secretary of Defense for Industrial Policy has established an email address for industry to submit tips and leads, included here:

osd.pentagon.ousd-a-s.mbx.covid-19-industry@mail.mil

Please note that Government support contactors will have access to the above email account to assist Industrial Policy with collecting and sorting your input, so if you would like to provide your input directly to our office, then please email me directly.

Separately, in addition to my role as the materials sector lead within the Assessments group, effective today I am being seconded to Industrial Policy's Defense Production Act (Title III) program to assist with COVID response.

Kind regards,

Matthew D. Zolnowski
Special Advisor, Strategic Materials
Materials Sector Lead
OUSD(A&S)/DASD, Industrial Policy
