LOCKHEED MARTIN

Chris Stone
Vice President, Supply Chain

Aug. 24, 2022

TO: Lockheed Martin Suppliers

SUBJECT: Aligning COVID-19 Centers for Disease Control (CDC) Protocols at U.S.-Based
           Lockheed Martin Facilities

The CDC recently updated its COVID-19 quarantine and exposure guidance. Public health officials still
consider COVID-19 an ongoing threat; however, high levels of vaccine- and infection-induced immunity --
and the availability of medical and other interventions -- have substantially reduced the risk for significant
illness, hospitalization and death from the virus.

To align with this guidance, the following protocols apply to persons coming to a U.S.-based Lockheed
Martin facility, effective Aug. 16:

**Onsite workers and visitors who have been <u>exposed</u> to someone infected with the coronavirus are
no longer required to quarantine, regardless of vaccination status or previous infection.** Instead, they
must follow the close contact safety protocols summarized here:

- Wear a high-quality mask as soon as you find out you were exposed
- Monitor for symptoms - if you develop symptoms, *isolate immediately*
- Get tested at least five full days after your last exposure
- If you test positive, *isolate immediately*
- If you test negative, continue to wear a mask through day 10

**All individuals must still quarantine/isolate per CDC guidance if they test positive for COVID-19 or
develop symptoms.**

**Masking and distancing will no longer be required, regardless of vaccination status or COVID-19
Community Level, except in specific situations, to maintain a safe workplace as follows:**

- Masking after confirmed exposure to a person with COVID-19
- Masking as part of the post-quarantine protocol
- Where required by federal, state, local or site-specific rules and regulations

Onsite workers and visitors may choose to voluntarily wear a mask at any time. We expect those who
enter our facilities to be considerate of the personal safety choices of Lockheed Martin employees and
fellow visitors.

If you have questions that are not covered on the VisitLM Help Page regarding this guidance or access to
Lockheed Martin U.S. facilities, please contact LMSecurity at vms.lmsecurity@lmco.com or call (407) 306-
7311 or toll-free at (866) 330-7311. You may additionally reference the VisitLM Quick Reference Guide.
Questions may also be brought forward to your Lockheed Martin procurement representative.

Thank you for your continued commitment to ensuring a safe work environment.
