## LINE OF BUSINESS

THAAD has a track record of 100% mission success in flight testing.

The Sniper Advanced Targeting Pod is the most widely deployed targeting pod in combat operations.

MFC has delivered more than 40,000 Javelin missiles to various military customers.

StratusRising provides two-way interaction with tactical sensor systems in an immersive 3-D display.

LMUK Amphill scored a \$1 billion contract to make turrets for the Scout Specialist Vehicle.

Lockheed Martin Energy has the industry's best engineers and technologists focused on energy innovation.

We (then Martin Marietta) made the Mark IV monorail for Walt Disney World at our Orlando site.

MFC Dallas (then LTV Aerospace & Defense) built the automated tram at the Dallas-Fort Worth airport; at that time, it was the most complex fully-automated transit system ever made.

The FORTIS exoskeleton makes tools up to 36 pounds virtually weightless for workers.

NASA developed the launch countdown process (10... 3, 2, 1, liftoff!) for our Scout Launch Vehicle (then LTV Aerospace & Defense).

Our Autonomous Mobility Appliqué System (AMAS) can turn practically any vehicle into a driverless vehicle.
