

Orlando Operations

With 60 years in Central Florida, Lockheed Martin's Florida operations are primarily located in the Orlando area with additional sites in Lakeland, Ocala, the Space Coast, Ft. Walton Beach, Riviera Beach, Oldsmar and other locations throughout the state. When Lockheed Martin (then the Glenn L. Martin Co.) opened its first Orlando office in 1956, it began a long legacy of growth and community support to the region.

Today, Lockheed Martin is one of the largest industrial employers in the state with more than 14,000 employees. Approximately 9,000 of the state's Lockheed Martin employees live and work in Central Florida, and continue that legacy of community support through various volunteer programs and philanthropic initiatives. Approximately 8,000 of those employees are based at our Orlando facilities.

LOCKHEED MARTIN MISSILES AND FIRE CONTROL (MFC)

MFC is a recognized designer, developer and manufacturer of precision engagement aerospace and defense systems for military customers that include the U.S. Army, Navy, Air Force, Marine Corps and dozens of foreign allies. The company is an industry leader and the Corporation's lead business for research, development and production of electro-optic and smart munitions systems, and is a pioneer in the field of versatile, high-performance missile and rocket technology. MFC, headquartered in Dallas, Texas, is also a leader in technologies related to millimeter wave radar, image and signal processing, advanced materials, electronic packaging and systems integration. Additionally, MFC provides logistics support services for U.S. Special Operations Forces and offers a wide range of products and services for the global civil nuclear power industry and the military's green power initiatives.

LOCKHEED MARTIN ROTARY AND MISSION SYSTEMS (RMS)

RMS' Training and Logistics Solutions (TLS) business is Lockheed Martin's center of excellence for training and logistics products and services, serving the U.S. military and more than 65 international customers around the world. Based in Orlando, TLS develops programs that teach service men and women skills to accomplish their most challenging missions — from flying the world's most advanced fighter aircraft to navigating a convoy through an urban environment. TLS is the corporation's hub for simulation, augmented and virtual reality, live-virtual-constructive capabilities, advanced training devices and full-service training programs. TLS also provides sustainment services such as supply chain and logistics IT

solutions, spares and repairs, as well as automated test and support equipment. TLS is a branch of the RMS business area, which is headquartered in Washington, D.C.

LOCKHEED MARTIN IN THE COMMUNITY

Lockheed Martin has a strong heritage of social responsibility and public service, which is a tradition that links our employees to the communities in which they live and work. In 2018, Lockheed Martin employees logged more than 65,000 volunteer hours in the Central Florida community and contributed more than \$1.5 million to local charities through employee giving and company campaigns which benefited organizations such as Camaraderie Foundation, Fisher House, American Cancer Society, American Heart Association, American Diabetes Association, Heart of Florida United Way and the USO. Our leadership is committed to guide Florida to education excellence through our support of science, technology, engineering and math (STEM) educational initiatives. Lockheed Martin works in partnership with educators, lawmakers and businesses to develop and execute a state-wide STEM strategy, to close the emerging talent supply gap and provide funding to enhance teaching skills and STEM curriculum.

ABOUT LOCKHEED MARTIN

Headquartered in Bethesda, Maryland, Lockheed Martin is a global security and aerospace company that employs approximately 105,000 people worldwide and is principally engaged in the research, design, development, manufacture, integration and sustainment of advanced technology systems, products and services.
