

ALLIANT 2

GSA'S PREMIER ENTERPRISE GWAC

INTRODUCTION

Alliant 2 is the Government Services Administration's (GSA) premier enterprise Government-Wide Acquisition Contract (GWAC). This multiple-award, indefinite-delivery, indefinite-quantity vehicle provides flexible access to customized IT solutions from a large, diverse pool of industry partners – including Lockheed Martin.

Through Alliant 2, Lockheed Martin offers structured integration of people, processes, and technology with a proven track record in providing our customers with cost-effective, quality support in planning, performing, and managing complex information technology requirements.

WHY ALLIANT?

Government agencies can obtain a single source of integrated IT services and access to “best in class” private sector IT services, offering a broad array of features and benefits including:

- Long-term planning on large-scale programs
- Flexibility in contract type at task order level, including Cost Reimbursement, Firm Fixed Priced, Time and Material, and Labor Hour plus new IT service labor categories
- Adheres to pre-competed and streamlined ordering procedures
- The primary Alliant support areas include:
 - Critical Infrastructure and Information Assurance
 - Agile Development
 - Artificial Intelligence
 - Big Data
 - Cloud Computing
 - Biometrics
 - Cyber Security
 - Internet of Things

LOCKHEED MARTIN CAPABILITIES

- Provides engineering services to develop, provision, manage, and secure an operational infrastructure.
- Enterprise-level contract to provide engineering support, technical services and material procurement.
- Utilization and sharing of cyber threat intelligence tying into risk-based solutions that prioritize threats, risks and vulnerabilities
- Efficient knowledge management, studying and fusing information to identify patterns, analyze threats, and identify persistent, concerted campaigns
- Risk Management Framework (RMF) - Compliance tailored to cyber controls, objectives, security risks and enterprise mission needs

ABOUT LOCKHEED MARTIN CYBER SOLUTIONS
