

Method of Procedure (MOP) For Pressurized Systems (Rev Jan 2022)

This MOP shall be completed by the General Contractor (GC) and submitted with other associated documentation (e.g., risk plan) to Lockheed Martin Space (LMS) Facility Operations & Services (FOS) and LMS Environment Safety & Health (ESH) prior to start of work per [LM Contractor ESH Requirements](#).

GC and its subcontractors are responsible for the health and safety of their personnel, though their own safety plans and procedures, and must comply with all applicable laws and regulations, as well as all communicated LMS site and program-specific requirements.

Project Name: Click or tap here to enter text.	Contractor: Click or tap here to enter text.	Building: Click or tap here to enter text.
FPR No: Click or tap here to enter text.	Contractor POC: Click or tap here to enter text.	Area: Click or tap here to enter text.
FO&S CM: Click or tap here to enter text.	Sub-Contractor: Click or tap here to enter text.	Start Date: Click or tap to enter a date.

Scope of Work	Click or tap here to enter text.
Health and Special Hazards	Click or tap here to enter text.
Safety and Special PPE	Click or tap here to enter text.
Materials Used	Click or tap here to enter text.

GC shall provide the following project details:

1. Description of pressurized system(s) conducting work on
2. What is the working pressure of the system(s)
3. Will relief valves or gauges be replaced
4. Are the pressurized system(s) insulated
5. Will welding or cutting be required on the pressurized system(s)
6. Does the pressurized system contain a gas or liquid:
7. Is the gas or liquid hazardous to people (e.g. asphyxiant, toxic, etc.) or the environment (e.g. Ozone depleting compound, hydraulic fluid)
8. Is the gas or liquid flammable or combustible
9. Description of process to relieve stored energy in the system(s)
10. Description of proof pressure method(s) used to verify system can operate safely at its maximum allowable working pressure
