![Figure 3.2](image2)

![Figure 3.3](image3)
General Instructions for Entering Data

- Leave non-applicable text fields blank (Do not enter “None” or “N/A”). If needed, use the "Add Optional Comment" button to add your remarks.
- Validation of your data will occur after you click "Save" or "Save/Continue" (Figure 3.4).

Figure 3.4

- LMSecurity recommends you continuously save as you navigate throughout the form to ensure you do not overlook a section or lose data due to session time outs if the computer screen is in idle mode for an extended amount of time.
- Please review the Most Common Rejections prior to entering your data on the SF86.

Errors and Warnings

- After you click the SAVE button, if there is an error, the system will display the same screen with "Validation Results" at the top of the form. You must correct the data you have just entered. Validation messages occur only when you have not answered a question appropriately.
- For "Error" messages, you may correct your data by scrolling down to the appropriate field and editing (Figure 3.5). After making corrections, click the SAVE button at the bottom of the page to save your changes. Error messages must be corrected before final validation occurs (Figure 3.6).
For validation “Warning” messages, you may either provide the requested information or check the box “I do not know the requested information” (Figure 3.7). In ALL cases, an additional explanation is required if the check box is used. After choosing an action, click the SAVE button to save your changes.

For validation "Error" and "Warning" messages, you may also choose to click the "Save/Continue" button. If you click Save/Continue, you can advance to the next question without making the correction. You will, however, have to correct the information prior to the final submission of your form (Figure 3.8).
If you make a mistake and have to start over, click the "Reset This Screen" button at any time prior to clicking the "Save" button. "Reset This Screen" will clear all answers on the screen (Figure 3.9)
Displaying your Data

You can display and/or print your personal information at any time while you are entering your data by selecting the "Display" link (located at the upper left-hand corner of the screen) (Figure 4.0)

By selecting "Display", a new browser window will appear. This window will contain an HTML formatted file, which will display all the data that has been entered up to that point. If desired, you can print the displayed data first by selecting "File", then "Print" from the new browser window (Figure 4.2).
Validating your Data

Although the e-QIP system will automatically validate your data after every screen save, you may also manually validate your screen. To do so, go to the navigation pull-down menu (top right hand side of the screen) and select "Validate, Review and Certify" button. Then select "Go" (located to the right of the pull down menu) (Figure 4.3)

**Click-to-Sign Signature Forms**

The signature forms are provided in an online electronic click-to-sign format. You will click-to-sign each release form which will automatically attach to your e-QIP application. This will allow for more efficient processing of your security clearance. If you agree to utilize the click-to-sign option, select “yes” to continue to the next screen.

If you opt out of click-to-sign, you have the option to go Back to change your answer to utilize the click-to-sign option. (Figure 4.8)

![Figure 4.8](image)

You will be prompted to enter your e-QIP account password in order to provide your digital signature. Enter your password and select “Continue” (Figure 4.9)
After entering your e-QIP password, the first release form will appear and prompt you to “Click Here to Sign” (Figure 5.0). This process will occur for each signature page. This will also give you the option to go back into your e-QIP application if you forgot to add something if you select “Edit Your Data”.
Once you select “Click Here to Sign” you will have the ability to print or save a copy of the receipt for the click-to-sign signature page. (Figure 5.1)

If you choose to opt out of the click-to-sign format, you are required to print the signature pages within step 3 of e-QIP (Figure 5.5). Make sure the printer is set to one-sided printing. After printing, you will need to manually sign and date each form. Your signature must be in black ink.
Once you have signed and dated your signature pages, the following options are available for you to send the forms:

After you have successfully certified your form and released it to your agency, you cannot change your data or log back in the system until there is another need for you to access e-QIP. When this event occurs and you login to e-QIP, most of your data will re-populate in the new request eliminating the need to re-enter all of your data again. *(Note: If your last submission was on or before August 2017, you will need to pay close attention to the information, if any, that carried over from your previous submission to ensure accuracy)*

Q: How do I have my foreign passport invalidated or destroyed?
A: To have your foreign passport invalidated or destroyed, you should contact the issuing country's embassy or consulate. They will provide you with the necessary documentation and process to invalidate or destroy your passport.

Q: I don’t want to destroy/invalidate my foreign passport. Do I have another option?
A: If you do not want to destroy or invalidate your foreign passport, you can have it made non-valid for official travel purposes. However, you must inform your employer and they will need to provide a statement confirming this.

Q: I have submitted a previous SF86 form in the past but now the questions are different. Why did the questions change?
A: The questions on the SF86 form change over time due to updates in security clearance regulations and requirements. It is important to provide accurate and up-to-date information to ensure a thorough security clearance process.

Q: What should I do if I don’t have any other names used?
A: If you are male or single female (never married), select the “Not Applicable” box. However, if you are a female who is married, divorced, annulled and/or widowed, provide a comment explaining that you have never used any other names.

Q: What do I put in the passport section if I am having my US Passport renewed and the Government currently has it?

A: Contacting a current or past employer will be a decision made by the adjudicator, but providing a comment (with a detailed explanation) requesting no contact be made will allow that adjudicator to decide if he/she needs to contact them.

Q: Why do I need to list Lockheed Martin as my current employer if I haven’t started with the company yet?
A: Lockheed Martin must be listed as your most current employer because the government requires the federal contractor that is sponsoring your security clearance request to be listed on your form as your current employer.

A: The following address and phone number must be used under the “Provide the address of employer” and “Employer phone number” fields: 100 Global Innovation Circle, MP 801 Orlando, FL 32825; Phone: 407-306-7311. In the “Physical Work Address” field enter your actual work location. If you are a new hire and unsure of your work location, please contact your recruiter.

Q: Why do I need to use 100 Global Innovation Circle, MP 801, Orlando, FL 32825 as my employer’s address if I don’t work at that location?
A: The National Background Investigations Bureau (NBIB) has changed their requirements regarding what address is needed as the address of employer. The address required is the address where the clearance and employment records required for your clearance process are located. This change will decrease the government investigation time, improving the overall cycle time of the process. The “Physical work address” field should be used if you are able to provide the address of where you are/will be physically located. If you are a new hire and unsure of your work location, please contact your recruiter. You will reach the Physical Work Location question after entering the Employer Address and phone number information then select “Save.”

Q: When should I use the Additional Periods of Activity option?
A: You should only use the Additional Periods of Activity option when you have worked for the same employer on separate occasions at the same location (for example, if you worked at Lockheed Martin in Orlando, FL during 3 separate periods of time (1/04-1/06, 1/07-1/08 and then 1/10-Present), you would enter the most recent period of employment as your main entry, and provide dates, position titles, and supervisors for the two previous periods of employment as additional periods of activity)

Q: Is part-time employment considered unemployment?
A: Part time employment is not considered unemployment. If you have part time employment, list that employer in an entry and select the “Part Time” employment box.

Q: Why was I rejected because my work and residence were in different states?
A: The government considers a reasonable commuting distance within the same state or adjoining states. However, if you telecommute or travel provide an explanation in the comment section.

Q: Do I need to list time as unemployment if I wasn’t receiving unemployment benefits?
A: You should list any period of time that you were not employed as unemployment, including school, retirement, travel, etc.

Q: What should I list for employment if I was a student?
A: If you were not working while in school, you should list that period of time as unemployment.

Q: What is a Selective Service Number and where can I find out if I have one?
A: Selective Service Registration is a way our government keeps a list of names of men from which to draw in case of a national emergency requiring rapid expansion of our Armed Forces. Q: Why was my SF86 rejected?
A: Specific reason(s) as to why your SF86 was rejected and what information is being requested would be provided via an email from LMSecurity.
• Before submitting your application to the government, our team reviews your form to make sure there are no corrections or clarifications that need to be made. When we find missing information or data that needs clarification we will send it back to you so that you can make corrections before sending it off to the government. At that time you will need to locate the section that needs correcting, make the changes or add information, recheck the yes/no questions and reprint/fax the signature forms.

• If the government request additional information or clarification they will send notification to LMSecurity and we will forward that onto you with the corrections that need to be made. At that time, you will need to locate the section that needs correcting, make the changes or add information, recheck the yes/no questions and reprint/fax the signature forms.

• Rarely the government rejects a file in error. If you receive an email stating your file was rejected in error, no changes are required, but you will need to recheck the yes/no questions and reprint/fax the signature forms.

• **Note**: LMSecurity is committed to protecting Lockheed Martin employees’ personal information. For additional options on transmitting personal information, visit [Security Clearance Connection](#).

**Q**: Do I need to wait to submit my application until after I have faxed my signature pages if I opted out of Click-to-Sign?

**A**: As long as you have printed or saved your signature forms to your computer you can release/submit your SF86.

**Q**: Do I need to attach the release (signature) forms in Step 4 (attachments)?

**A**: No, this will occur automatically when utilizing the click-to-sign option.

**Q**: How can I receive my signature forms if I cannot log back into e-QIP?

**A**: If you have already submitted your e-QIP: You will not be able to log back into your e-QIP and retrieve your signature pages. Once receiving your e-QIP for review, we would need to reject it back to you in order to retrieve your signature pages for completion. You will then receive instructions via email to log back into your e-QIP and re-answer all the yes/no questions. In the final steps when releasing your form, you will find a link titled “Signature Forms” at the bottom left hand corner in Step 3 of 5, where you may obtain a blank copy of these documents.

**Q**: How do I know if you have received my SF86, including Signature Pages?

**A**: Your SF86 form is submitted online via the e-QIP site. LMSecurity will not have access to review your form or ability to confirm whether it was submitted until 24 hours after you have released your form to us. If you need confirmation before then, we would recommend that you attempt to log back in to the e-QIP site. If you still see the Golden Questions you created, your form has not been released and you will need to log in and release your form to us. If you see that your Golden Questions have changed to something other than the questions you created, this indicates that you have released your form.

• Your signature pages are available in an electronic click-to-sign format and will automatically attach within step 4 of the e-QIP application. You will be prompted to click-to-sign each release form. If you wish to opt out of the digital click-to-sign format, the following options are available to you for submitting your signature pages:
  o Email a digital copy of the requested documents to: faxserver.lmsecurity@lmco.com
  o Fax without a cover sheet to LMSecurity at (720) 479-2750
  o Mail the requested documentation overnight to: Lockheed Martin Corporation Attn: LMSecurity 100 Global Innovation Circle, MP801 Orlando, FL 32825

**Q**: Why do I have to submit new signature forms? What is wrong with the old ones?
A: You may need to submit new signature forms due to one of the following reasons:
- If your application has been rejected back to you for corrections, the investigation number will change on the new form you will be submitting. The signature forms you previously submitted also contain an investigation number. Since the government requires that the investigation number on your application matches the investigation number on your signature forms, the forms you previously submitted would no longer be valid and you are required to submit the updated set.
- If you opted out of the click-to-sign format and manually signed the signature forms, they could have been deemed to be of poor print quality or invalid. You are required to submit a new set. Some of the most common examples of poor print quality are:
  1. Black or white lines running through the form
  2. Blurry or illegible
  3. Missing signature or signature too light

Q: Why am I receiving an email stating that my SF86 has not been received?
A: There are a few reasons as to why you are receiving an email stating your SF86 has not been received:
- It can take 24-48 hours for our system to update reflecting a completed status for the required SF86 form. Once that occurs, the emails will no longer be sent. Depending on when you submit your application, another email can be sent out before our database is updated.
- A common mistake when completing the form on e-QIP is not going to the final step and selecting the “Release Request/Transmit to Agency” button. You will simply need to log back in and go to the final step making sure that you select the “Release Request/Transmit to Agency” button.

Q: My SF86 was sent back for corrections on certain sections but when I validated the form it gave me a lot of errors. Why do I have to complete all of the sections again?
A: The e-QIP system requires that you provide your most up to date information. Since the system does not recognize the last time that you submitted your SF86 form, it requires that you re-check the yes/no questions every time your form is sent back to you for corrections to confirm you are providing the most up to date information.

Answers to Miscellaneous Questions

Q: Where can I get a copy of a previous SF86 that I submitted?
A: LMSecurity Operations Center only stores previous security clearance applications for current employees who have submitted a previous form to our Security Operations Center starting in 2006 and have confirmed they want a copy of their SF86 form stored within our systems. If you submitted a previous Security Clearance Application to a different company or to LM prior to 2006 we will not have your information stored.
A: If you are a current LM employee and submitted a clearance application to LMSecurity Operations Center after 2006, you may be able to obtain a copy via the EDSS website found on LMPeople. Use the following navigation: Security, Safety, and Travel>General Security Information>Employee Security Information>Request a Copy of Your Clearance Paperwork

Q: Why do I have to complete another SF86 when I just completed one for my Annual Clearance Review (ACR)?
A: Every 6 (Top Secret) or 10 (Secret) years you are required to update your SF86 form for reinvestigation by the government. During the year when your reinvestigation is due you will be required to update your form twice within the same year unless both the ACR requirement and the PR requirement are due at the same time.
• Certain contracts require that you update your SF86 form on an annual basis in order to maintain Government Program Compliance. These forms are reviewed by your CPSO and are not submitted for government review.

Q: Do I need to complete an SF86 if I have completed one in the past two years?
A: Unless the SF86 form is required to maintain Government Program Compliance, you do not have to complete a new form if the previous SF86 was submitted to the government, an investigation was conducted, and adjudication was made for an equal or higher clearance level than the one you are currently submitting.
A: You will need to submit an updated SF86 if the one previously submitted was solely completed to satisfy a customer requirement and there was not an investigation conducted or the previous investigation was adjudicated for a lower level clearance.
A: If you are unsure of any of the above, you may contact LMSecurity toll free at 866-330-7311 or 407-306-7311 Monday – Friday 7:30am to 6:30pm EST to validate your need for a security clearance investigation.

Q: Can LMSecurity grant extensions for completing the SF86?
A: Extensions can be granted on a case-by-case basis. However, if the system timelines have already been started, a new request may be needed from your local Facility Security Officer (FSO).

Q: Does having a foreign passport automatically disqualify me from having a clearance?
A: Possession of an active foreign passport is a non-mitigating factor and a Department of Defense clearance will not be issued to anyone who retains this document. You will need to go to your local security officer to have them witness its destruction/invalidation or relinquish the document to the LM Security Operations Center. Once the passport has been destroyed/invalidated or surrendered, you will need to add a comment stating that it has been destroyed/surrendered along with the date of destruction/retention before you can resubmit your form.

Q: How do I have my foreign passport invalidated or destroyed?
A: You may take your passport to your local FSO/Security office who may witness the destruction of your foreign passport. You may shred or use a hole punch to destroy the passport. The local security office must sign the Foreign Passport Destruction/Retention form provided by LMSecurity stating they have witnessed the destruction of the document.

Q: I don’t want to destroy/invalidate my foreign passport. Do I have another option?
A: The passport holder may surrender the foreign passport to their FSO/local security office for safekeeping, but the FSO is not required to perform this service. The passport holder may also surrender their documentation to LMSecurity by mailing it to 100 Global Innovation Circle, MP 801, Orlando, FL 32828. If the FSO does accept the surrendered passport and the FSO subsequently returns the passport to the cleared individual while the passport is current, the FSO must submit an incident report in JPAS with details concerning the return of the passport.

Q: I have submitted an SF86 form in the past but now the questions are different. Why did the questions change?
A: As of August 2017, the government released a new SF86 form. Anyone who is required to submit an SF86 form will be completing the newly updated SF86 form.
